HEIGHT SERIES
SMART UMBRELLA

11 FT.

Though an essential bit of patio furniture, traditional umbrellas can be bothersome to manage, being susceptible to dirt and wind, and time consuming to set up and close, especially when you have multiple umbrellas. The Above Height Series Smart Umbrella introduces automation and smart controls to make all these problems a thing of the past.

Equipped with advanced technologies, including a remote control, built-in battery, high efficiency solar panel, a wind sensor, and an ambient light, the Above Smart Umbrella represents the most cutting-edge development for outdoor patio umbrellas.

Solar Panel

Charge your umbrella using the sun.

Wind Sensor

Auto close your umbrella when high winds are detected.

LED Light

Add some ambiance to your umbrella at night.

Remote Control

Open one or mutiple umbrellas from one remote.
