## Technical Data - Sirocco

| Material: The pole and ribs are all made using laminated bamboo. The hub, runner and finial are all made from marine grade nylon PA66. |  |  | All metal fittings are 304 stainless steel <br> Opening: A double pulley and rope system is used for easy, light opening. |  |  |  | $\begin{aligned} & 1=\text { tot } \\ & 2=o p t \\ & 3=\text { clos } \end{aligned}$ |  |

The Sirocco is designed for the commercial and domestic markets with the Bambrella ${ }^{\circ}$ three key points of design - durability, strength and style. The main feature of the Sirocco is the use of nylon for the hub and runner, which have built in rollers for the rope pulley system and a patented locking cleat. This clamps the rope so there is no need for the use of a pin to hold the canopy up.

The smaller sizes of the Sirocco can have a two piece pole using a 304 stainless steel connector allowing for easy storage and transportation.

The Sirocco, like all of our other ranges, has easily changeable parts.
