

SPLIT RAW DINING

As with our own fingerprints, so every teak tree is one of a kind. Even within the managed plantation environment, no two trees share the same ground or reach for the light in the same way and thus, each grows and matures in its own unique way with the natural variations and irregularities that give timber its inherent appeal. Every growth ring, every knot and the graceful ebb and flow of the grain stands testament to its journey from young sapling to mature tree – a journey of up to 70 years.

In normal mass production, timber is regulated, ordered, standardised to conform to strict manufacturing parameters. But with the Raw concept, we celebrate the unpredictable and revere the irregularity of nature. Whether it be the colour or depth of the sap wood or the texture of the bark – each imperfection tells a story and marks each piece out as unique. Just as no two teak trees are the same, so no two pieces of Raw furniture will match.

Designer	Henrik Pedersen
Materials	Powder Coated Aluminium Raw Buffed Teak

About Gloster

As life gets faster and more complex, the need for quality time and space - the freedom to be you - grows too. At Gloster we open doors to timelessly beautiful exteriors where your furniture sets the mood, just the way you want it to be. And we take the long view, using only the very best materials and techniques available. Our aim is your pleasure - to be enjoyed in countless special moments outdoors.

With offices world-wide and our own manufacturing facility in Indonesia, Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.
