

Infrared Outdoor Patio Heaters

Patio Comfort outdoor infrared patio heaters are designed and crafted to bring warmth, comfort, and enjoyment to your “alfresco” dining and entertainment events. The clean and efficient infrared radiant heat feels just like the sun, warming people and surfaces, while not wasting valuable energy trying to heat air. No longer does the outdoor fun and entertaining have to stop when the sun goes down!

Patio Comfort heaters can provide the perfect outdoor comfort heating solution and are available in a wide variety of colors, mounting options, and are available in both propane and natural gas models.

Natural Gas Heaters

Patio Comfort outdoor heaters are available for natural gas fueled residential and commercial installations. Our natural gas NPC05 models are constructed of the highest quality components for durability, maximum performance, safety, and long life. Our Model NPC05-AB (Antique Bronze) and SS (Stainless Steel) are the only natural gas patio heaters available that include a commercial quality U.S. Made "MB Sturgis" 12 foot steel-lined hose, two solid brass quick couplers, and solid brass safety shut off valve for added safety, portability, and convenience. The NPC05-SPP (Stainless Steel) permanent mount heater also includes a high quality installation kit with connector and gas shut-off valve.

*Also available in

(Stainless Steel)

Portable Propane Heaters

All Patio Comfort propane fueled PC02 Stainless Steel, Jet Silver Vein and Antique Bronze Model heaters are easy to move with convenient portable wheel kits. All Patio Comfort heaters are designed with long-term durability, safety, and performance in mind. Our colored heaters are “powder coated” to compliment your patio décor and for added durability.

Our Vintage Heaters are made with rugged commercial quality components for heavy duty applications, and proves outdoor heating can be beautiful.

All major components and fasteners used in our heaters are made from commercial grade aluminum, stainless steel, aluminized steel, or brass. We supply the right equipment. You supply the party!

Vintage

Our Vintage Series Model PC-02CAB (Antique Bronze) combines the classic and elegant design elements of old-world craftsmanship, integrated beautifully into the latest in safety-oriented, functional, high performance, and long lasting comfort heating products.

- Rugged heavy duty cast post and aluminum tank enclosure.
- Unique “EZ” access hinged double doors with heavy duty latch mechanism to safely enclose the propane cylinder.
- All polyurethane powder coating for greater durability.
- Unique Series “11L” heavy duty burner and emitter support.
- Exclusive cast iron base to prevent accidental tipping.
- UL Approved to US and Canadian standards.
- Optional 22” aluminum table available (for Vintage only).
- Available in Propane (LP) only.

PC Cover Touch-Up Paint

PLEASE NOTE: Installation must conform to local codes and ordinances. Please check with local fire, code, or safety officials if you have any questions as to the suitability, legality, or acceptability of this heating appliance and proper storage of propane cylinders.

Please read and follow all assembly, operating instructions, and warnings to fully enjoy the benefits of your heater and to avoid potential fires, serious injury or death from misuse.

WARNING: For use in well ventilated outdoor areas only. Never use inside a home, camper, boat, shelter, tent, vehicle or any other unventilated or enclosed area. These heaters (and all outdoor heating and cooking appliances) consume oxygen and create deadly carbon monoxide gas which can cause serious injury or death. Never attempt to modify or alter these heaters, their controls, or safety systems in any way.
