OUTDOOR PORTFOLIO 14

CHEERS to the sounds of laughter over a glass of wine with girlfriends, a cold draft beer at the barbeque, frozen treats for the kids poolside, and wowing guests with a craft cocktail at sunset – all while enjoying the great outdoors.

Raise your glass to nearly 100 years of innovation in premium refrigeration and award winning, made in the USA products. A toast to the industry's widest selection of UL-rated refrigeration for outdoor use backed by Perlick's **industry best 3 Year Warranty.**

Meet Perlick's incredible line of award-winning undercounter refrigeration – designed, engineered and manufactured with your outdoor space in mind.

THE ART OF THE COCKTAIL

Craft cocktails are an art form. They require attention to detail and a sense of craftsmanship, melding the flavors of fresh fruits, flavorful herbs and whimsical spirits within the confines of one simple, chilled glass.

Whether shaken or stirred, on the rocks or straight up, you can trust Perlick to keep your ingredients and glasses perfectly chilled. Perlick's incredible selection of **15- and 24-inch refrigerators, freezers and beverage centers** provide ample storage for all the elements of the ultimate cocktail.

To top it off, Perlick's **15-inch Clear Ice Maker** produces crystal clear top hat shaped ice, free of impurities that could alter your beverages taste. The unique top hat shape cubes also help to prevent clumping, which is commonly seen with traditional crescent and cube-producing machines.

Accessory Martini Glass Rack
RS-24-24M (shown)

► **INSPIRED BY: A Pomegranate Martini**
Add an accessory Martini Rack to any 24" door style freezer or refrigerator to chill martini glasses and spirits.

► **INSPIRED BY: Outdoor Dining**

Perlick's full line of undercounter refrigeration features stainless steel interiors and unmatched temperature control, ensuring that your goods are properly preserved and ready to serve no matter what the forecast calls for.

THE FRESH TASTE OF SUMMER

Summer sunshine gives way to an abundance of flavors from the garden. Whether it be colorful bell peppers and onions on a grilled chicken shish kabob, or ripe strawberries atop a gorgeous mixed greens summer salad, fresh ingredients are key in preparing the ultimate alfresco dining experience for your friends and family.

Proper preservation of fresh ingredients is made simple with Perlick's full line of **15- and 24-inch outdoor refrigerators**. Store meat and vegetables for the grill, components for a refreshing fruit salad, and cold beverages for your guests in your outdoor entertaining space. Add our new **Drawer Pan Organizer** to keep chopped, diced and prepared mise en place on the ready. All models are available with choice of door or set of drawers, including glass door that features Low-E, UV-coated glass to keep products visible without sacrificing insulation and protection.

STORE AND SHOWCASE PRECIOUS VINTAGES

A beautiful bottle of wine served alongside a delicious grilled meal is the recipe for a perfect summer evening. Whether it is grilled shellfish with a glass of Sauvignon Blanc, or a well-crafted burger served with a robust glass of Syrah, wine and outdoor gourmet go hand-in-hand perfectly.

Proper conditions are required to protect wine from spoilage. Wine is perishable, and when exposed to the enemies of wine such as temperature variances and light, its complex blend of flavors and aromas can be severely compromised. Perlick combats these enemies with a variety of features to keep your collection of precious vintages in ideal conditions even when the thermometer hits 100°.

Available in **15- and 24-inch single zone and dual zone outdoor models, as well as the industry exclusive Sottile 18-inch deep models - Perlick wine reserves can accommodate up to 40 bottles of wine.** The entire Perlick wine portfolio features with our Low-E, UV-coated glass door that provides industry-leading insulation and protection.

► **INSPIRED BY:**
The Special Occassion Vintage

Whether celebrating a milestone or just enjoying the company of friends and family, an impressive bottle of wine is always a showstopper. Proper wine storage preserves the spicy red berry flavors, floral aromas and savory accents meant to be cherished each and every glass.

Accessory floor racks and wood wine faces add aesthetic customization to wine reserves, and Signature Series models feature Blue and White LED lighting to further showcase your collection.

► **INSPIRED BY: The Science of Craft Beer**

Perlick is known for impressive innovations in beer dispensing, and those same innovations have crossed over into our collection of Signature Series Beer Dispensers. Unique to the industry, Perlick Signature Series Beer Dispensers are outfitted with the revolutionary new 650SS Forward-Sealing Flow Control Beer Faucet. Winner of a 2014 GOOD DESIGN Award. This new faucet puts you in control of the pour of your beer. Certain craft beers require a slower pour to create a proper head, which can be accomplished with a simple lever adjustment.

THE PERFECT POUR

Perlick has been affiliated with the brewing industry for nearly a century – designing, engineering and manufacturing equipment for breweries and beer dispensing systems for professional sports stadiums around the world.

We've taken the same commercial-grade technology and materials from our large venue systems and added a touch of luxury to produce the **industry's leading line of beer dispensers** for the home. Perlick's 15-inch Beer Dispensers can store a 1/6th keg, while our 24-inch models can accommodate two 1/6th kegs or one 1/4th keg.

All beer dispensers feature Perlick's exclusive air-cooled draft arm towers, and our Signature Series line boasts the 650SS Flow Control Beer Faucet that has the industry-exclusive ability to control the speed of the pour from the faucet.

WHAT MAKES IT A PERLICK?

A Perlick isn't just an undercounter refrigerator. It's refrigeration that strikes the perfect balance between robust, yet efficient, cooling technology and sleek aesthetics that are visually pleasing. We use only the highest quality materials and finishes to produce our beautiful cabinets, and feature the industry's most powerful refrigeration system. We also take engineering measures to make sure our products are, not only dependable, but also long lasting. We view a Perlick as an investment, not a purchase, and that's why we offer a variety of standard features to extend the life of the product, as well as provide energy efficiency you won't find with competitor brands.

Stainless steel interiors and exteriors provide the industry's most sanitary and durable surface. It makes cleaning easy and keeps cabinet cooler than those with a plastic liner.

Robust refrigeration system properly **chills room-temperature product in just 30 minutes** – far exceeding the temperature pull-down of any competitor models.

All models are available to order with **fully integrated doors and drawers** that come ready to accept custom wood overlay panels.

Glass doors feature **Low E coated, Argon filled dual-pane thermal glass** to limit energy transfer through glass and add increased strength – indoors or outdoors.

Adjustable black vinyl coated full-extension pullout shelving allows for cold air to flow freely through the cabinet, extend completely out of the cabinet smoothly on stainless steel ballbearing glides, and are rated for 75 lbs of goods.

Drawer models feature stainless steel interior liner with thermal break construction, and **full-extension drawers that carry a 200 lb. capacity each.**

DOING OUR PART

Here at Perlick, we take great pride in the designations and certifications we've earned for our green practices. **We believe that environmentally friendly manufacturing is just as important as the products that we put our name on.**

Our commitment to environmental initiatives has earned us certification by the **Wisconsin Green Tier Program**. This designation is given to manufacturers that continually evolve their practices to meet high standards set toward superior environmental performance, and is based on global standards consistent with ISO 14001.

Perlick is the only residential refrigeration manufacturer to be accepted into the Green Tier Wisconsin program. In addition to green practices to produce the product, several of our product lines have models that are **ENERGY STAR®** qualified. Visit perlick.com/residential-products to learn more about these products.

MEET THE INDUSTRY’S MOST EXTENSIVE COLLECTION OF PREMIUM OUTDOOR REFRIGERATION

The Perlick name is synonymous with design, innovation and american-made craftsmanship. It’s one of the many reasons that Perlick is the leader in luxury undercounter refrigeration for any space – indoors or outdoors.

With a robust refrigeration system that doubles the capacity of the leading competitor, you can trust Perlick outdoor products to keep your food, beverages and precious wine collection cool, even on the hottest of summer days.
