

Gas Fire Pits

Contemporary fire pit series

Our contemporary line of gas fire pits are individually constructed by hand in the USA using 98% recycled steel and finished in our revolutionary polymer Armor finish making it nearly indestructable. Our beautiful and unique Armor Coating is heat resistant up to 400 degrees, scratch resistant, ultraviolet proof and easy to clean. Each fire pit is hand finished and hand ground giving them a truly unique one of a kind appearance like no other.

Parallax PX42

Durango

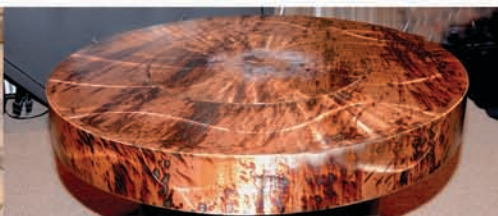

Parallax PX60

Athena

The Contemporary fire pit series can be used with either, Natural Gas or Liquid Propane. The Athena and Durango contemporary fire pits offer a hinged door for easy storage of 20 lb LP (liquid propane) BBQ size tank. The Parallax series can be used with an external BBQ size tank with a 10' hose and a quick disconnect.

Our contemporary fire pits come complete with a matching lid insert which converts the fire pit into a table and helps protect the fill material when not in use.

Custom Stone fire pit series

Our Handcrafted Complete Custom Stone Fire Pits are custom made with your choice of base stone, cap stone, grout joint, and height. We fabricate your Custom Fire Pit around a powder coated steel frame to eliminate rust and corrosion. The sturdy steel frame also allows us to ship the fire pit completely built on a pallet without any flexing which prevents mortar or stone damage during transit or installation.

36" Square not pictured.

The Stone Fire Pit series is available in Natural Gas or Liquid Propane (LP).

For LP we provide a 10' hose with a quick disconnect at the base of the Fire Pit to use a 20lb BBQ size tank externally. We also provide proper venting in the base of the fire pit for use with LP.

Shipped on a pallet ready for hook up to a existing gas line or LP tank

Custom shapes and sizes are available. Please call for Info.

Our **Contemporary Series Fire Pits** are available in our exclusive Armor Coated finishes. We use steel coated with a revolutionary polymer, making it nearly indestructible. It will not rust*, tarnish, bleach in the sun, or burn.

*Our Copper Vein finish is recommended for coastal, salt environments.

Our **Handcrafted Custom Stone Fire Pit Series** are available in wide array of manufactured thin stone veneers.

Choose the fire pit size, cap stone color, base stone, and even grout joints. More stone choices at www.sunsetstone.net
