

A row of four white, modern outdoor chairs with a geometric, angular design is arranged on a light-colored stone patio. To the left, a large terracotta pot holds a green cactus against a wall of light-colored bricks. In the background, a large, leafy tree stands behind a low brick wall, and a green lawn is visible. The scene is brightly lit, suggesting a sunny day.

OUTDOOR  
SUMMER 2023

## SCULPTURAL DESIGN

---

By embracing a design philosophy rooted in simplicity and informed by ergonomic principles, our furniture achieves a sculptural quality that integrates well in a variety of aesthetics.

## UNPARALLELED DURABILITY

---

Our furniture is constructed from premium marine-grade polyethylene using sophisticated rotational molding techniques. This material and manufacturing process give our pieces incredible durability in the harshest environments.

## EASY TO OWN

---

We aim to make owning our furniture effortless. One-piece construction means zero components that will rust or fail over time. Simply rinse clean with soap and water, or power wash for more stubborn stains.

*the new*  
DECK CHAIR

## *behind the* DESIGN

"In furniture design, we're all drawing inspiration from iconic silhouettes that are decades, sometimes centuries, old and our new Deck Chair is a perfect example of that. I set out to design something that felt derivative of a classic, blocky, outdoor lodge chair typically made of teak or wood but I wanted to elevate it through a high-design, rotomolded execution with unmatched comfort and durability. The final product is something that feels as familiar as it does unique."

## IN-POOL USE

Our chairs can be used on the ledge of a well-maintained pool. Each style has a recommended maximum water depth and we do not recommend exceeding these recommendations.

Chairs can be filled with water to prevent buoyancy.

MAKE IT YOUR OWN

Give your tupelo cornhole set a permanent, personal touch with a monogram, custom text, or your own logo. Each logo is etched into the board so it will last as long as the board itself.

## *behind the* DESIGN

"We set out to design an industrial strength cornhole set that is more akin to high-end patio furniture than a cheap yard game. The construction and materials used in the design of this cornhole set were directly inspired by the architecture and commercial construction industries and the final product is a cornhole set that is truly best-in-class."
